ABOUT ME

With over 15 years of dedicated experience in the CGI industry, I am a seasoned professional known for my successful collaborations with various companies in the automotive sector. My expertise encompasses a wide range of services, from internal rendering and production to the intricate design and modeling of body kits. I am deeply committed to delivering excellence in every project, with a meticulous attention to detail that ensures the highest quality of execution. As a skilled CGI artist, I am proficient in all facets of the field, including lighting, shading, texturing, modeling, and rendering, which has solidified my reputation for comprehensive and exceptional work.

WORK EXPERIENCE

INDG

2025 - Present
Amsterdam (remote)

● CGI SUPERVISOR

CGI supervision for top motorcycle and automotive brands including Yamaha, Honda, KTM, Harley Davidson, and Acura, driving high-quality production standards, fostering team collaboration, implementing innovative techniques, and ensuring visuals aligned seamlessly with brand vision and project goals
